

DRUG AND ALCOHOL TESTING PROGRAM

Employees who operate school vehicles classified as "commercial motor vehicles" by the U.S. Department of Transportation, and are required to possess a commercial driver's license (CDL) to operate those vehicles, are subject to drug and alcohol testing. A "commercial motor vehicle" is a vehicle that transports sixteen or more persons including the driver or has a gross vehicle weight rating (GVWR) of 26,001 pounds or more. For purposes of the drug and alcohol testing program, the term "employees" includes applicants who have been offered a position to operate a commercial motor vehicle owned by the school.

Employees or employee applicants that will operate a school vehicle as described above are subject to pre-employment drug testing prior to being allowed to perform a safety sensitive function using the school vehicle. In addition, employees will be subject to random, reasonable suspicion and post-accident drug and alcohol testing. Employees operating school vehicles will not perform a safety-sensitive function within four hours of using alcohol. Employees governed by this policy are subject to the drug and alcohol testing program beginning the first day they operate or are offered a position to operate school vehicles and continue to be subject to the drug and alcohol testing program as long as they may be required to perform a safety-sensitive function as it is defined in the administrative regulations. Employees with questions about the drug and alcohol testing program may contact the school district contact person, Superintendent, at 2535 Viking Avenue, Fairbank, Iowa 50629.

Employees who violate the terms of this policy are subject to discipline up to and including termination.

It is the responsibility of the superintendent to develop administrative regulations to implement this policy in compliance with the law. The superintendent will inform applicants of the requirement for drug and alcohol testing in notices or advertisements for employment.

The superintendent will also be responsible for publication and dissemination of this policy and its supporting administrative regulations and forms to employees operating school vehicles. The superintendent will also oversee a substance-free awareness program to educate employees about the dangers of substance abuse and notify them of available substance abuse treatment resources and programs.
