

Will these facilities be available to the public to use outside of school hours?

Board policy 905.1 “Community Use of School District Facilities and Equipment” establishes some guidelines for the community’s use of the buildings. As the policy states, community groups can make a request to use school facilities. As the opening of the buildings approaches, and we determine what types of activities the buildings can support, we’ll provide more specific guidelines about how community use of the buildings can be arranged and will be managed.
