

Will the school purchase new all new furniture for the elementary schools?

No. The classroom furniture that is being used in the current buildings will be transferred to the new buildings. A couple exceptions do exist. The furniture in the main offices is built in, so those furnishings will not be moved to the new office. Also, each school will have a conference room that will need to be furnished with a table and chairs. Also, the guidance office will need to be furnished with a table and chairs. However, student desks, teachers' desks, reading tables, and the like will all be moved from the existing building to the new building.
